How to schedule & take a self-guided home tour

Forget normal business hours. This is new home shopping on your schedule.

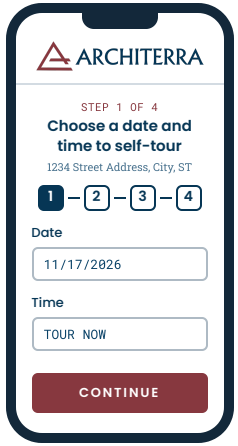

1

On our website, click the “Schedule a Self-Tour” button to go to our self-tour scheduling platform. To access the platform from our signs, aim your smartphone camera at the QR code on the sign and open the link.

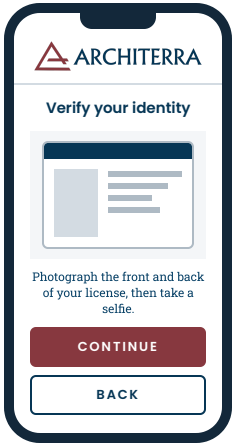

2

If this is your first visit, click “Create Account.” Repeat visitors log in with their email address and password.

3

Select your date and time. You can also choose “Tour Now” to tour the home immediately.

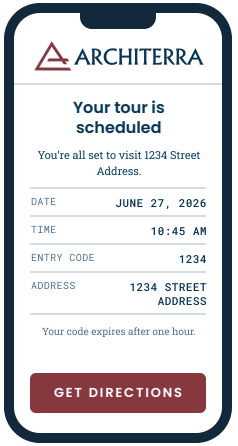

4

Choose how to verify your identity: credit/debit card or driver’s license. This is only required on your very first visit.

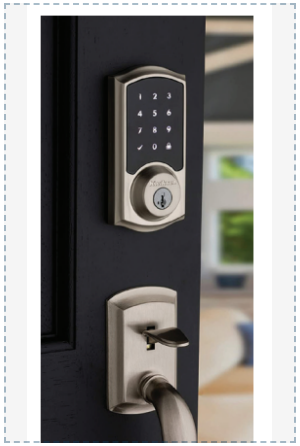

Credit / debit card: complete the form. Your card verifies identity only — it will not be charged.

Driver’s license: photograph the front and back, then take a selfie.

5

Agree to the terms and conditions and you’ll receive your 4-digit entry code. Arrive at the home during your scheduled time.

6

On the front door, hold your palm over the keypad to wake it. Enter your access code and press the checkmark (bottom left).

Make sure the door closes completely behind you when you enter and leave. Enjoy your tour.
